

# Secure & Elegant Windowed Bubble Mailers By **CPP Boxes**

*Sleek and professional solution for packaging and shipping. Featuring a clear window to showcase contents while maintaining the integrity of your items.*

## Windowed Bubble Mailers

- Made from high-quality, puncture-resistant materials, these mailers are designed to protect your items from impacts, scratches, and moisture while in transit.
- The transparent window allows you to display important information, such as invoices, labels, or branding, without opening the mailer. Ideal for retail products, documents, and promotional materials.
- The inner bubble lining ensures maximum cushioning, protecting fragile items, electronics, and other sensitive goods from damage during shipping.
- The easy-to-use self-seal flap provides a secure closure without the need for additional tape or adhesives. Simply peel the strip and seal, ensuring fast, efficient packing.
- Enhance your brand visibility with custom printed options that include your logo, company details, or promotional message on the front or window area.
- The lightweight design reduces shipping costs while providing essential protection for your items.
